

To whom it may concern,

As a fellow citizen of our country, I am deeply concerned about the possibility that a declaredly partisan piece of television programming is being considered to error in place of regularly scheduled programming. (Assuming what is already being programmed isn't already partisan.)

It would be a disgrace.

Why?

A critical clash of visions is flaming over a sizeable portion of the world and hundreds of thousands of people are dying. The state of our economy is horrifying, as is the deepening divisions between the people of our beloved land. The presidency is a very important position which serves not to govern the people but represent them. In order for people to be most truly represented it is ESSENTIAL that they have a balanced view of both candidates. That is, they must be presented with true, representative information about both.

Interrupting regular programing to push information about one of the candidates without dedicating equivalent time to the other candidate is irresponsible and shameful.

I cannot believe biased money is dictating the content that is reaching the eyes and minds of the television watchers of America in regards to THEIR representatives. It is dangerous and threatens not only democracy, but the well-being of each and every being on our earth.

I urge you to follow the law, serve public interest, and NOT allow one-sided programs like that of Sinclair.

Thank you.
